The Einhell replacement brush set is an accessory set suitable for the joint cleaners BG-EG 1410, GC-EG 1410 and the cordless joint cleaner GC-CC 18 Li. The set consists of a steel wire brush and a nylon brush. The robust, 10 mm wide steel brush is ideal for cleaning joints from a joint width of 10 mm. The 6 mm wide nylon brush also cleans narrower joints from a joint width of 6 mm. The replacement brushes reliably and accurately remove weeds, dirt, deposits and moss between tiles and paving stones. This is how the courtyard entrance and terrace look in no time at all!
